GitHub: <https://github.com/vikkyrg>

Portfolio: <https://yourportfolio.link>

Summary

Final-year MCA student specializing in MERN stack development with hands-on experience building and deploying full-stack web applications. Skilled in REST API development, database design, and responsive UI implementation. Passionate about developing scalable web solutions and continuously improving through real-world projects.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6), React.js

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Postman, VS Code

Deployment: Vercel, Render

Concepts: REST API, CRUD Operations, MVC Architecture, Responsive Design

Projects

Resume Generator Web Application (MERN Stack)

- Developed a full-stack resume generator with React.js frontend and Node.js/Express backend
- Built RESTful APIs for resume data management and MongoDB Atlas integration
- Implemented dynamic form state handling with real-time preview rendering
- Deployed frontend on Vercel and backend on Render with environment-based configuration
- Designed responsive UI using modern component-based architecture
- Managed CRUD operations and handled API error responses for stable user experience

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, REST API, Vercel, Render

Live: <https://resume-generator-opal-eta.vercel.app/>

Portfolio Website

- Built a personal developer portfolio using React.js with reusable component-based architecture
- Designed a fully responsive modern UI for mobile and desktop compatibility
- Showcases MERN stack projects with direct access to source code and live demos
- Integrated EmailJS for contact form functionality
- Deployed the application using Vercel for fast and reliable hosting

Tech Stack: React.js, JavaScript, CSS3, EmailJS, Vercel

GitHub: <https://github.com/vikkyrg>

Live: <https://your-actual-portfolio-link>

Dump & Drop – Service Platform (Internship Project)

- Developed responsive user interface pages for travel booking and goods delivery services using HTML, CSS, and JavaScript
- Built an Admin Panel using React.js to manage bookings and service data
- Integrated Firebase for real-time database storage and data retrieval
- Implemented form handling, data display, and basic CRUD functionality in the admin dashboard
- Ensured mobile responsiveness and cross-browser compatibility
- Collaborated with backend team to align frontend features with business requirements

Tech Stack: HTML, CSS, JavaScript, React.js, Firebase

INTERNSHIP EXPERIENCE

Web Development Intern – Litz Tech (2023)

- Developed responsive web interfaces using HTML, CSS, and JavaScript following modern UI practices
- Converted design requirements into functional web pages with clean and maintainable code
- Improved mobile responsiveness and cross-browser compatibility
- Used Git for version control and collaborated with team members during feature updates

Web Development Intern – Innomatrix Technologies (3 Months)

- Contributed to frontend development of service-based web applications
 - Built reusable UI components and assisted in implementing admin panel features
 - Worked with JavaScript to handle form validation and dynamic content rendering
 - Participated in debugging, testing, and improving overall user experience
-

EDUCATION

Master of Computer Applications (MCA)
Erode Arts and Science College, Erode
2024 – 2026 | CGPA: 7.6 (3rd Semester)

Bachelor of Computer Applications (BCA)
Erode Arts and Science College, Erode
2021 – 2024 | CGPA: 7.5

Higher Secondary Certificate (HSC)
Govt Boys Hr Sec School, Pallipalayam
2021 | Percentage: 76%

ADDITIONAL INFORMATION

Languages: Tamil (Native), English (Proficient)
