Summary

MERN Stack Developer experienced in building and deploying full-stack applications with REST APIs, MongoDB integration, and responsive React interfaces. Developed real-world projects including a resume generator with PDF generation and an admin dashboard with CRUD workflows. Passionate about writing scalable code and solving user-focused problems.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Postman, VS Code

Deployment: Vercel, Render

Concepts: REST APIs, MVC, CRUD, State Management, Responsive Design

Projects

Resume Generator Web Application (MERN Stack)

- Built dynamic resume creation system supporting multiple form sections and real-time preview
- Designed RESTful APIs handling structured resume data with validation, reducing invalid submissions
- Implemented reusable React components, reducing code duplication and improving maintainability
- Added backend validation and error-handling workflows to ensure reliable data processing
- Integrated MongoDB Atlas for persistent storage of user-generated resumes
- Managed environment-based deployment (Render + Vercel) using secure configuration variables

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, REST API, Vercel, Render

Portfolio Website

- Developed modular component-based architecture for scalability
- Integrated EmailJS API for contact functionality enabling direct user communication
- Optimized responsiveness across mobile and desktop devices
- Implemented clean routing and structured project showcase

Tech Stack: React.js, JavaScript, CSS3, EmailJS, Vercel

Dump & Drop – Service Platform (Internship Project)

- Contributed to the development of a real-world service platform for travel booking and goods delivery solutions.
- Developed responsive user interface pages using HTML, CSS, and JavaScript to support customer workflows.
- Built a React.js-based Admin Panel to manage bookings, services, and operational data.
- Integrated Firebase for real-time database storage, retrieval, and synchronization.
- Implemented form handling, data visualization, and CRUD functionality in the admin dashboard.
- Ensured mobile responsiveness and cross-browser compatibility across the application.
- Collaborated with backend developers to align frontend features with business requirements and API responses.

Tech Stack: HTML, CSS, JavaScript, React.js, Firebase

Internship Experience

Web Development Intern – Litz Tech (2023)

- Converted UI designs into functional web pages using HTML, CSS, and JavaScript.
- Improved mobile responsiveness and fixed cross-browser compatibility issues.
- Debugged layout and styling problems to enhance user experience.
- Used Git for version control and collaborated with team during feature updates.

Web Development Intern – Innomatrix Technologies (3 Months)

- Assisted in developing frontend features for service-based web applications.
 - Built reusable UI components and implemented form validation using JavaScript.
 - Supported admin panel development and tested application workflows.
 - Participated in debugging and improving overall application performance.
-

Education

MCA – Erode Arts and Science College, Erode (2024–2026) | CGPA: 7.6

BCA – Erode Arts and Science College, Erode (2021–2024) | CGPA: 7.5

Additional Information

Languages: Tamil (Native), English (Proficient), Telugu (Conversational)
