Summary

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Developed scalable applications with REST APIs, CRUD operations, authentication and authorization, and responsive user interfaces. Skilled in JWT authentication, protected routes, API integration, and modern web development practices. Proficient in JavaScript and Git.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Postman, VS Code

Deployment: Vercel, Render

Concepts: REST APIs, MVC, CRUD, Protected Routes, State Management, Responsive Design

Projects

Resume Generator Web Application (MERN Stack)

- Designed a resume generator with multi-section forms, live preview, and PDF export.
- Developed REST APIs with validation, error handling, and MongoDB integration.
- Implemented JWT authentication, authorization, and protected routes.
- Secured API endpoints using RBAC and authentication middleware.
- Created reusable React components and responsive user interfaces.

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, REST API, Vercel, Render

CollabBoard SaaS – Real-Time Collaboration Platform (MERN Stack)

- Developed a real-time collaboration platform for secure multi-user collaboration.
- Implemented JWT authentication, role-based access, and secure room joining.
- Built a real-time whiteboard with synchronized drawing using Fabric.js and Socket.IO.
- Integrated real-time chat, video calling, screen sharing, live cursor presence, and AI assistance.

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Socket.IO, Fabric.js, Agora RTC SDK, JWT

Admin Dashboard (Internship Project)

- Developed a React.js admin dashboard for managing services and operations.
- Implemented CRUD, forms, and data visualization features.
- Integrated Firebase for real-time data management.

Tech Stack: HTML, CSS, JavaScript, React.js, Firebase

Live: [View Project](#)

Portfolio Website

- Built a responsive portfolio website using React.js and reusable components.
- Integrated EmailJS to enable direct communication through a contact form.
- Optimized the user interface for mobile and desktop devices.
- Implemented clean routing and showcased projects in a structured format.

Tech Stack: React.js, JavaScript, CSS3, EmailJS, Vercel

Internship Experience

Web Development Intern – Innomatrix Technologies (Dec 2025 – Feb 2026 | 3 Months)

- Assisted in developing frontend features for service-based web applications.
- Built reusable UI components and implemented form validation using JavaScript.
- Supported admin panel development and tested application workflows.
- Participated in debugging and improving overall application performance.

Web Development Intern – Litz Tech (2023 | 15 Days)

- Converted UI designs into functional web pages using HTML, CSS, and JavaScript.
 - Improved mobile responsiveness and fixed cross-browser compatibility issues.
 - Debugged layout and styling problems to enhance user experience.
 - Used Git for version control and collaborated with the team during feature updates.
-

Education

MCA – Erode Arts and Science College, Erode (2024–2026) | CGPA: 8

BCA – Erode Arts and Science College, Erode (2021–2024) | CGPA: 7.5
